# **Overhead Sprinklers**

## **Application**

- · All agriculture crops and gardens irrigated by overhead irrigation.
- · For irrigation and germination of vegetables, flowers, potatoes.
- · For Efficient irrigation of field edges.

\*Peformance is based on ideal conditions of Temperature, wind velocity and Humidity.

### AQ - 22PC-GAG

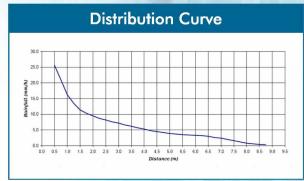

- For Garden & landscape
- Operating at low pressure.
- Diffusor screw to change the water jet from heavy droplets to fine spray.
- Adjustable deflector plate to change the spray height and to reduce throw.

### **Features**

- Available in ½" BSPT Male threaded
- · Color coded nozzles for easy size identification.
- Nozzle Bayonet connection for easy service in field conditions.
- Nozzles with integrated stream straightening vane for long range.
- Engineering Plastic material for durability and corrosion resistant.
- Pivot pin and Springs made of Stainless steel.
- Part circle assembly made by special grade plastic material for longevity.
- Recommended Pressure 2.0 4.0 kg/cm² or 30 55Psi
- Recommended spacing up to 8m for higher distribution uniformity.
- Trajectory Angle: 25°

Nozzle Size: 2.9mm, Orange Pressure: 2.5kg/cm<sup>2</sup>

\*Model 22PC tested at irstea, France at riser height 750mm
